LTE Consulting = $1

Try our LTE consulting offer of **4 hours** for just **$1**

What can you achieve in 4 hours? Lots

➡ Discussion of LTE technology trends & evolution

➡ Suitability of various platform offerings from picochip, Altera, TI, Infineon, Freescale

➡ Discussion of key challenges with respect to LTE MAC scheduling and channel optimization

➡ Migration of products from HSDPA/WIMAX to LTE

Our Proud Customers

STOKE   **BECEEM**   **C-DOT ALCATEL RESEARCH CENTER**

inmarsat   **ALTERA.**   **HUGHES.**

Our speciality

We are a communication software development company, with long experience in developing software for RAN components in the mobile wireless space

Case Studies

LTE base-station physical layer architecture, design and testing

Multi-mode UT protocol stack design with LTE support

End-to-end TCP performance testing and enhancement over 3G network

Implementation of LTE MAC with CSDP scheduling and guaranteed QoS support
